## New York Stock Market

New York, July 27.—After a peaceful morning session, with slightly higher prices, the stock market was badly upset to-day by a heavy selling movement. Declines were more rapid and extensive than had been the case in several weeks, ranging from one to nearly three points among the standard stocks. The pressure was severe enough for a time to give the market a feverish appearance, but before the end of the day it grew calmer, and some issues, rose fractionally above the low point. Net losses were general, Consolidated Gas being almost the only stock of any prominence to score an advance.

London seling and a continuation of yesterday's bear raid seemed to be chiefly responsible for to-day's further setback. The pressure from abroad was simultaneous with reports of the British Premier's speech on the Moroccan entanglement, and was continued late enough to indicate that business was not suspended in London until well into the evening. The movement was heavier than any previous one during the present period of uneasiness over the Meroccan stuation. Estimates of the selling for Lendon account ran from 50,000 to 75,000 shares.

The increased uneasiness abroad indicated by the heavy foreign selling New York, July 27.-After a peace

ly three points, was the heaviest loser among the standard issues, aithough the Harriman stocks declined nearly as much. While the losses were most general among the railroad stocks a number of industrials, including United States Steel, Westingheuse Electric, American Beet Sugar, International Harvester and Interborough-Metropolitan preferred, were distinctly heavy. Buying of the coal stocks was continued on a large scale for the third successive day. Trading in Reading during the first hour of the sessiln constituted more than one-third of the whole.

Gossip of the board room connected the name of a prominent trader, who
